Name of Approved Tagging Facility cattle are being transported to:

Address of Facility: _____

City: _____ Province: _____

Trucking Company: _____

Trucker Name: _____

183. (1) Subject to subsection (5), an animal may be moved from its farm of origin, without having an approved tag applied to it, to a site for the purpose of having an approved tag applied to the animal at that site if

- (a) the person who manages the site has previously provided the administrator with a statement containing the name and address of the site and an undertaking that the person will comply with the requirements of paragraphs (c) to (e);
- (b) the animal is accompanied by an approved tag issued to the operator of the farm of origin for the purpose of subsection 174(1);
- (c) the animal is not mixed with any other person's animals that do not bear approved tags;
- (d) the approved tag referred to in paragraph (b) is applied to the animal immediately after it is received at the site; and
- (e) the person who manages the site keeps records, and makes them available to the administrator on request, of enough information about the origin of the animals received there to enable their origin to be traced, including
 - (i) the names and addresses of the owners or persons having the possession, care or control of the animals when they are brought to the site,
 - (ii) the dates when the animals are brought to the site, and
 - (iii) the numbers of the approved tags that are applied to the animals and the dates when the approved tags are applied to the animals.
